

18th SWISS FUND DAY 2024 - Sponsor packages**Riding on the AI wave: Opportunities for Swiss Funds and Asset Managers****Tuesday, 10th September 2024, 1 to 6 pm, Aura Zurich****This year's topic:**

This year's conference focuses on the seismic impact of Artificial Intelligence (AI) on the institutional asset management landscape in Switzerland. While traditional mutual funds have long dominated the market, the rise of technologies has ushered in alternative models like ETFs, and avant-garde strategies such as factor investing and smart beta. The question looms: Are mutual funds still paramount? Join industry leaders as we explore the forefront of change, dissecting trends, innovations, and challenges. Discussions will span diverse investment models, ethical considerations, and regulatory landscapes in this AI-driven era. Uncover the tools and strategies essential for constructing portfolios that endure challenges, ensuring sustained shareholder value. Embark on this condensed exploration of AI's impact on institutional asset management—an unmissable rendezvous for navigating the evolving landscape.

About Swiss Fund Day

Founded 2005 by several visionary industry representatives for having an own platform for IT, back- and middle office, and regulations topics. The main audiences are CxO, Head Operations and/or Head IT, or management responsible like Chief Data Officer, Chief Technology Officer etc. The event is an established community platform with over 150 attendees each year. The organisation committee chooses and select the advisory board. The main activities of the organisation committee are the fund raising, event planning and the financial anchor responsibility. It consists of two ExB members of State Street Global Exchange und Quartal Financial Solutions AG. The event is under the patronage of Swiss Fund und Asset Management SFAMA.

Target audience

The platform is aimed at all senior management, operational and IT professionals. In these topics, the Swiss Fund Day is still a unique selling proposition. Right from the start, we have succeeded in presenting current issues of practitioners in a neutral and comprehensive way. The importance of the event is supported by the fact that the Swiss Funds and Asset Management Association (SFAMA) has taken over the patronage since 2011 and actively supports the theme design.

Target audience: CxO, Head Operations and/or Head IT, or management responsible like Chief Data Officer, Chief Technology Officer

Number of Attendees

On average up to 250 high profile participants attend the event every year (including remote viewer attendees).

Language

English (speeches can be held in also in German)

Organisation committee

The organisation committee chooses and selects the advisory board. The main activities of the organisation committee are the fund raising, event planning and the financial anchor responsibility. It consists of two ExB members of State Street Global Exchange und Quartal Financial Solutions AG. The event is under the patronage of Asset Management Association Switzerland (former Swiss Fund und Asset Management SFAMA).
